EnGen improves careers and performance by breaking down language barriers at scale.

Together we enable workforce integration for all New Americans and drive long-term career success for both ELL job seekers and incumbent workers.

ENGEN

EnGen's language upskilling platform directly meets the demands of WIOA by providing your programs with the English language training resources necessary to ensure WIOA success for English Language Learners (ELL).

Our platform combines adaptive, real-world content and workforce readiness skills to effectively prepare learners and job seekers for higher education, and can serve as an effective bridge to sector-focused job training.
