

EnGen Supports Speakers of 69 Languages

EnGen is building tools for the future of language learning, ensuring more learners are able to participate than ever before. One of the ways we make our mobile-first, results-driven platform more accessible is with keyword and context translation features based on the learner's primary language. In total, 69 languages* are supported on the EnGen platform with more being added.

Here are all of the translatable languages we support on the EnGen platform.

Language	Web Interface	Mobile Interface
Dari	x	x
French	x	x
